Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Tuesday 09 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rain, heavy at times, with strong winds. Milder than recently.

This Evening and Tonight:
Dry this evening, before heavy, persistent rain spreads across the region into the night. Heaviest in northern areas overnight, with dry spells for some by dawn. Accompanied by strong winds throughout. Milder than recently. Minimum temperature 5 deg C (41 deg F).

Wednesday:
Unsettled conditions continue throughout, with near-continuous rain, occasionally heavy, with persisting strong winds. A brief dry spell later, before locally heavy showers overnight, with risk of gales throughout. Maximum temperature 11 deg C (52 deg F).

Outlook for Thursday to Saturday:
Continued frequent blustery showers, heavy at times, on Thursday and Friday with strong winds, and a sustained risk of gales at first. Further showers on Saturday, but slightly less blustery.
